Corporate Philosophy

Mission

Leave this world better than you found it.

Vision

We shall establish leadership in whatever we do at home & abroad.

Credo

Serving & striving through strain & stress; doing your noblest, that's success.

Goal

To produce quality goods at optimum cost and market the same at reasonable price so as to achieve total customer satisfaction, fair return for all other stakeholders and continued growth for the Corporation through sustained innovations.

Guiding Principle

In order to achieve the goal, we shall work hard, manage men, material and money in an integrated, efficient and economic manner keeping in view that social responsibility and environmental concerns are equally relevant.

Work Culture

Work is life.

"Awards, Rewards, Recognition and Appreciation are but milestones which remind us of our responsibility and obligation to do better in future than what we did in the past. We must not bask in the glory of the past and be complacent. If anything, these should inspire us to raise our level of commitment for achieving our stated objectives. Our search for innovation, exceptional merit and outstanding performance in the field of Agriculture has been unending. It must remain so without bounds".-**Bhavarlal Jain**, *Farmer Chairman*

Prologue The farmer is perhaps the only enduring symbol in today's modern world that stands for ecological balance. For a philosophy that says live and let live. He lives off nature without ever degrading it. Always adding value. Giving back to it more than what he takes away. We at Jains are farmers at heart. We have for the last 35 years believed that nature and science can co-exist. A symbiosis can be achieved. That new technologies and processes can and should be used to conserve nature's precious resources and add value to them.

Be it PVC Piping Systems for farm irrigation, Micro Irrigation for efficient water management, Tissue Culture & Green Houses for higher productivity, WSS Liquid Fertilizers, Bio-Fertilizers and Bio-Pesticides for modern hi-tech agriculture. Plastic Sheets as substitutes for wood, and Solar Water Heaters for energy conservation and eco protection.

The pages that follow list the Awards bestowed on the Company and its Chairman. These have been stated chronologically from 1978 till 1999.

Categorywise the tally of the 68 Awards is : **2 International, 33 National, 24 State and 9 Institutional Awards..**

The graphic representation shows their Citation as well as the name of the Dignitaries at whose hands these Awards were given. It also portrays the officials of the Company who have received these Awards.

Crawford Reid Memorial Award (Irrigation Association USA): 1997

To Shri B.H. Jain, Chairman, for 'Significant contribution to the Micro Irrigation Industry outside the United States and for promotion of proper irrigation techniques and procedures for bringing about major advancement of the Industry'.

In past 19 years, the Award has been received only by 3 persons outside the United States. The Award was presented for the first time to the Chief of private commercial organisation. Mr. Jain is the first Indian citizen and the second Asian to have received this Award.
